

Coachella Valley Engineers

February 16, 2006

To Whom It May Concern:

I am pleased to recommend Rod Wolf and his staff to your company. They have been providing Coachella Valley Engineers with excellent service for approximately the past 6 months.

Mr. Wolf and his team have been extremely efficient in providing us with boundary, construction staking and topographic field surveying services. We appreciate Rod and his staff and have found them to be reliable and prompt in providing their surveying services.

Rod and his team would be an asset to any organization. We have suggested the use of their services to other companies and would do so again.

Sincerely,

Coachella Valley Engineers

David B. Turner
President
